## *what we include with our footwear, for you to customize your fit*

### ***our footbed or yours?***

Our footwear insoles come complete with arch support and deep heel cups – but if your feet need a little extra love, all of our footwear styles feature a removable insole for your own custom orthotic.

### ***a little roomy?***

Our Full-length fillers are a shoe-in for half-sizes. Place them underneath the footbed to reduce the volume in the shoe.

## NEW CANCUN

## for a fit as unique as you

revere sandals and shoes have been designed uniquely for you. We know, no two feet are the same, so with help and guidance from foot health experts, we have created a fitting system that enables you to personalize the fit of your revere sandals and shoes to create more adjustability through the use of our innovative Strap Extenders.

Our Strap Extenders are low-profile and discreet and are included in the box with every pair of sandals and shoes, allowing you to customize the length of any strap without sacrificing style.

For those with narrow feet, many of our sandals feature trim marks on the straps. This is the ideal solution to shorten the length of a strap if required, to enhance the look and feel of our upper designs.

The **CUSTOM COLLECTION** provides our trusted removable contoured arch support footbeds, that can be removed for those wishing to wear their own orthotics in our sandals.

The **HEIGHTENED COMFORT** sandals were launched in 2018 with phenomenal success. Again designed with a contoured arch support, we have included a soft metatarsal raise to off load pressure across the forefoot area to reduce ball of foot pain.
